?? DIAGNÓSTICO OPERACIONAL E INCONSISTÊNCIAS DE INTEGRIDADE

Os saldos negativos representam uma inversão cronológica nos lançamentos (onde baixas e aplicações em procedimentos médicos são computadas no sistema antes das respectivas Notas Fiscais de entrada serem registradas) ou digitação divergente na grafia dos lotes (gerando lotes fantasmas). Adicionalmente, foram identificados registros com **Medicamento ID Nulo (Órfãos)** que requerem intervenção manual no banco de dados.
